

Fast and Precise Battery Quality Screening

Know your battery quality

- Identify shortcomings in battery performance and lifetime before use
- Significantly reduce warranty costs and risk of your battery-driven products
- Monitor and trace the battery quality of your suppliers

Quick and easy implementation

- Versatile for all battery sizes and geometries
- Works out-of-the-box and is easily integrated into your current process
- Minimal staff training and qualification required

Fast and intuitive workflow

STEP 1

Insert & scan cell

STEP 2

Quality evaluation
within 1 second

STEP 3

Extract cell
